Our MIE alumni testify

"At Vlerick, I got to know many companies in many industries. This helped me to better focus and get to know what I actually want to do in life. The career services and clubs were main drivers behind this. As the career services helped me to get my CV and motivation letters on point and show me career paths that best suit my goals and expectations, so did the clubs help me to get more practical insights into sales and strategy consulting and meet many companies."

Mario Vanderlinden - MIE 2019 - Accelerated Growth Consultant at Google

After working for five years in Beirut, Elias Maalouli knew he wanted to set up his own business. When he decided to follow the Masters in Innovation & Entrepreneurship programme in 2016, it was the first step in his journey as an entrepreneur. Last year, he finally launched FoundersBei, a co-working space in Beirut.
